

10 TIPS TO AVOID WORKPLACE INCIDENTS

SAFETY FIRST

PROTECTION

REGULATIONS

HAZARDS

HEALTH

INSURANCE

Creating a culture of safety is a year-round effort. Keep yourself and your co-workers safe by following these 10 ways to prevent workplace incidents:

1. Take responsibility for your own safety and for the safety of others.
2. All accidents are preventable. Be aware of what you're doing at all times.
3. Always follow proper procedures. Don't take shortcuts.
4. If you don't have the proper training on a task or piece of equipment, ask for help first.
5. Use the right tools and equipment and use them the right way.
6. Consider all the possible risks before you start your work.
7. Wear appropriate and safe work clothing and footwear.
8. Lift with your legs, not your back.
9. Keep your work area clean.
10. Wear the personal protection equipment necessary for the job.

Let's promote a culture of safety together.
